

Nonprofit Accounting Services

As Certified Public Accountants and Advisors, BRC focuses on nonprofits and does much more than perform audits and help meet your reporting requirements. We help you achieve success by focusing on ways to reach your organization's mission and goals. Nonprofit organizations require a thorough understanding of accounting, financial and consulting issues that are particular to their needs. This hands-on experience gives our team a deeper understanding of the issues.

The **Nonprofit Practice** at BRC is dedicated to serving tax-exempt organizations by providing a customized mix of assurance, tax, and advisory services to help keep you in compliance and focused on your mission at hand. Tax-exempt status unfortunately does not mean exempt from complex tax rules, regulations and processes. Exempt organizations have unique tax needs that demand specific knowledge, attention to detail and solid advice.

Over the years, our practice has delivered numerous hours of service to nonprofit organizations. And our people are committed not just to the clients we serve but also to a host of not-for-profit and community-oriented organizations, serving on various boards and committees.

BRC provides comprehensive support and forward-thinking financial guidance to charities and non-governmental organizations (NGOs). We provide the nonprofit industry with resources that address key issues and trends in the sector, covering vital areas like operations, board governance, HR, along with the most pressing challenges nonprofits face, including technology and fraud mitigation.
